

CONFLICT RECOVERY PROGRAMME FOR LEBANON

Donor Update

April 2008

SUMMARY OF THIS MONTH'S ACTIVITIES AND OUTPUTS

- **Visual search & clearance of 395,619 m²** of land through hand, electronic, and visual techniques.
- **Removal and destruction of 443 hazardous Remnants of Conflict¹** – 308 sub-munitions and 135 items of unexploded ordnance

BATTLE AREA CLEARANCE AND EXPLOSIVE ORDNANCE DISPOSAL

The continued focus of clearance for this month has moved towards clearance of agricultural and pastoral areas for the recovery of livelihoods.

MAG worked in the following areas and achieved the following outputs from 1st April to 30th April 2008:

- **Area 6:** 20 BAC teams, one mechanical team, and one reconnaissance team continue to operate. They worked in 14 villages: Yohmor, Zawtar West, Arnoun, Aadchit, Jibchit, Maazraat Doumiat, Sejoud, Qaaqaiat Al Jisr, Qossaybe, Kafar Roummame, Al Nabatieh Al Tahta, Kafar Sir, Habbouche, and Harouf. These teams have used visual and electronic methods of clearance, clearing an area of 395,619 square metres. 443 Remnants of Conflict were found and destroyed.

All teams are contributing to the **social and economic recovery and development** of South Lebanon through the safe, efficient, and effective clearance of Remnants of Conflict.

COMMUNITY LIAISON (CL)

All Contact Officers have continued to undertake community liaison activities at the pre-clearance, clearance, and post-clearance stages.

There were 411 activities during the month, including 69 data collection activities², 56 liaison activities, 13 UXO tasking reports, and 177 other activities that support clearance work by providing control point locations and storage areas, securing land owner's approval for using their house/fields for clearance activities, liaison with local authorities, and emphasizing public safety messages to communities undergoing clearance.

EMERGENCY UXO CLEARANCE IN NAHR EL-BARED REFUGEE CAMP, TRIPOLI

MAG was contracted by the United Nations Development Programme (UNDP) to conduct a risk assessment and survey of the Nahr el-Bared Refugee Camp. The risk assessment and survey were completed during the month of April, and will be used to prioritize clearance of Remnants of Conflict at the camp.

¹ MAG uses the term *Remnants of Conflict* (RoC) to describe all items recovered and destroyed as part of its humanitarian disarmament activities, which include Anti-Personal and Anti-Vehicle mines, Explosive Remnants of War (ERW), abandoned and unexploded ordnance (UXO) and SA/LW. This term has been developed to reflect more accurately the broad range of clearance activities undertaken by MAG.

² Data collection includes population, socio-economic data, village services and beneficiary details. If the teams discover a minefield/dangerous area then information is collected specific to the dangerous area/minefield in addition to the general information form.

TOTAL OUTPUTS OF THE MAG EMERGENCY RESPONSE IN SOUTH LEBANON

	Aug 06- Nov 07	Dec '07	Jan '08	Feb '08	Mar '08	Apr '08	TOTAL
Area Searched (Visual/Hand/ Electronic Check) (m ²)	6,460,122	193,008	116,914	315,581	287,255	395,619	7,768,499
Mines Removed/Destroyed	2	0	0	0	0	0	2
UXO Removed/Destroyed	765	2	20	14	12	135	948
Bomblets/Sub Munitions destroyed	15,967	122	87	273	219	308	16.976
No. of Dangerous Areas Cleared	223	0	0	15	4	5	247

Area searched 15th-31st August 2006 not recorded due to rapid emergency clearance (cessation of hostilities on 14th August 2006)

MAG's work is SAVING LIVES...

In Lebanon alone:

- Almost 7.8 million m² of land cleared and made safe
- Almost 18,000 Remnants of Conflict destroyed
- 247 dangerous areas cleared
- Assisting 450,000 people at risk from death or injury from Remnants of Conflict
- Helping humanitarian agencies to deliver emergency and rehabilitation aid **free from the risk of death and injury**

...AND MAKING A REAL DIFFERENCE

Improved Safety of Communities

By removing the threats of Remnants of Conflict, and increasing vulnerable groups' awareness of these threats, a tangible **improvement of the safety of communities** affected by conflict is being achieved.

Rebuilding Communities

By removing the threat of Remnants of Conflict, communities can return to areas previously vacated or re-establish themselves elsewhere. As such, the quality of life of a population can be increased and a **more stable and productive environment created**.

Supporting the Recovery of Sustainable Livelihoods

The presence of Remnants of Conflict restricts community recovery and development. Once a community has been able to re-establish itself in a physical location, it also must develop a livelihood upon which it can sustain itself. The presence of Remnants of Conflict limits the land available for economic use such as farming and agriculture, business, and tourism, and acts as a barrier to natural resources. **By removing Remnants of Conflict MAG allows vital land to be utilized and for communities to improve their livelihoods.**

Key Contribution to National Recovery Efforts

By creating a safe environment, MAG is supporting the reconstruction of Lebanon's primary infrastructure, including schools and medical facilities, which is **vital for the mid-to-long-term recovery and development of the country.**

DONORS

- Adopt A Minefield
- DFID
- European Commission
- German Federal Ministry of Foreign Affairs
- Norwegian Ministry of Foreign Affairs (NMFA)
- US Department of State, Office of Weapons Removal and Abatement
- United Nations Office for Project Services (UNOPS)
