

Job Specification: Technical Field Manager – Standards and Training

Department:	Programmes
Scale:	Technical 3
Line managed by:	Standards and Training Manager (STM)
Responsible for line managing:	Training staff and students
Location:	Overseas

MAG's Vision is a safe future for women, men and children affected by violence, conflict and insecurity.

People will live in communities where their rights are upheld, with dignity and choice and free from fear from mines, explosive remnants of war (ERW) and the impact of small arms and light weapons and ammunition.

MAG's Mission is to save lives and build safer futures. We will use our core skills and distinctive competence to save lives through the removal of mines and ERW, and reduce the impact of small arms, light weapons and ammunition on people and communities. How we do this is as important as what we do – we work primarily with and for communities, for us 'it's all about people'.

Job Purpose:

The Technical Field Manager - Standards and Training, is a member of the programme's Standards and Training Team (ST Team) consisting of other international and national staff. The ST Team's purpose is to develop and deliver quality Training Management Packages (TMPs) in all areas of land release, operational management, and technical EOD competencies in compliance with MAG Global Technical Standards (GTS), Standard Operating Procedures (SOPs), mission and mandate.

To develop and implement comprehensive Quality Management Systems (QMS) across all areas of technical operations to maintain safety, improve standards and promote best practice. To conduct incident and accident investigations and prepare comprehensive reports in compliance with MAG GTS to ensure lessons are learnt.

Job Description:

Training

- Plan, prioritize & coordinate all training operations within the programme in order to achieve project outputs
- Conduct relevant Training Needs Analysis (TNA) to develop current course and training curriculums and develop new programs and curriculum where necessary
- Develop all internal training management packages (TMP) in coordination with the STM/TOM
- Ensure all training is designed and delivered within the parameters of the project and technical Standard Operating Procedures (SOPs)
- Conduct training and mentoring for national staff instructors in techniques and skills for training, to assist in the effective delivery of training courses
- Carry out reviews, development and revision of SOPs and training curriculum as required in consultation and coordination with the STM and TOM
- Plan and implement monitoring and assessment of all operational teams to ensure effectiveness of training and identify training needs.
- Responsible for accountability and maintenance of all training equipment and facilities, ensuring these are safe to use, maintained and upgraded where appropriate and necessary.
- To develop and implement personal development plans for a national counterpart.
- Pro-actively recommend new training and procedures in relation to enhancement of productivity, safety and skill sets to the TOM.

Quality Management:

- Plan, implement and report on Quality Assurance (QA) activities conducted by the ST team.
- Ensure ST team staff are fully familiarized with National Mine Action Standards (NMAS) MAG SOPs, International Mine Action Standards (IMAS) and all MAG programme operational documentation.
- Provide weekly reports to the STM on all internal QA monitoring visits and evaluations.
- Plan, coordinate and record all quality management operations within the programme.

Technical

- Ensure full knowledge of and ensure implementation of all SOPs, drills and other work practices.
- Conduct reconnaissance and survey of mine/ordnance contaminated areas as appropriate.
- Ensure an in-depth and up-to-date knowledge of all mines and munitions in the theatre of operations.
- Ensure an in-depth and up-to-date knowledge of all relevant technical equipment in the theatre of operations.
- Ensure the maintenance, and safe and appropriate storage of all necessary project materials and equipment (including explosives and accessories).
- To conduct assessments and other technical training missions on behalf of MAG in country and worldwide.

Capacity building

- Design, development, delivery and evaluation of appropriate training programmes for technical personnel within the project. Oversee the day-to-day training and development of national staff to conduct Land Release, mine and EOD activities in compliance with MAG GTS and MAG SOPs.
- Build and maintain good working relationships with all national staff to maximize capacity-building objectives.

Management and HR

- Manage, motivate and develop the training team within the project to perform to a high standard.
- Ensure that staff and student files/records for training and qualifications are produced and shared with HR.
- Ensure that HR policies and procedures are implemented in consultation with Base Manager / HR Manager.
- Participate in the recruitment procedures for all project students in line with MAG's policies and procedures.

Communication and Reporting

- Ensure the STM and TOM are fully informed on all training issues and technical difficulties identified.
- Submit accurate training reports as directed by the STM, and produce technical reports and documents as required.
- Assist the STM/TOM in the development and production of training proposals, reports and budgets
- As required by the STM/TOM conduct or participate in investigation and reporting of incidents/accidents in compliance with MAG GTS 10.60 Investigation and Reporting of incidents and accidents.
- Liaise with the programme as required to ensure consistency in training objectives, best practice and lessons learnt are shared.
- Ensure that all training activities are recorded and reported to STM/TOM.

Health, Safety and Security

- Monitor security situation in work location and areas of operations ensuring that the STM/ TOM are kept informed of security risks and developments.

All International staff are expected to undertake the following general duties:

- Work within the framework of MAG's core values, promoting its ethos and mission statement.
- Work towards achieving programme and/or department business plan objectives
- Ensure familiarity with and adhere to all MAG policies and procedures and keep informed of MAG activities
- Undertake and apply learning from appropriate training and development Programmes.
- Undertake role in developing countries and areas in conflict where standards of living may be basic.
- Undertake the role in a manner appropriate to the cultural context and within the local legal framework.
- Understand and uphold the standards outlined in MAG's Safeguarding Framework, acting with due care and attention to safeguard the wellbeing of anyone that comes into contact with MAG's work and reporting concerns if they do arise.
