

MAG 23 02 PTT– Pricing Questionnaire

Please add your unit prices for each piece of equipment and/or Airtime item.

All equipment should be priced to include necessary accessories, such as, handset, console, antenna, cradle, installation, vehicle mounting kits, programming cables / software, user manuals, power supply/ chargers where required. Where any item is not included in the boxed / standard product supply, and is an additional item required, the items should be listed and priced to allow for a like for like comparison. For example, it should include the necessary accessories to install the radio into a vehicle.
